HYDRATION PIONEERS

REPURPOSE®

MADE WITH PURPOSE

SUSTAINABILITY STARTS WITH GOOD INTENTIONS

BY 2025, ALL CAMELBAK® PRODUCTS WILL BE DESIGNED
TO REDUCE OUR CLIMATE IMPACT & CONTINUE TO BE MADE
WITH THE SAFEST MATERIALS.

PRODUCT

Our commitment to craft long-lasting and responsible product is ongoing. We will continually improve the design and make of our products by utilizing sustainable materials and smart manufacturing processes wherever possible.

PEOPLE

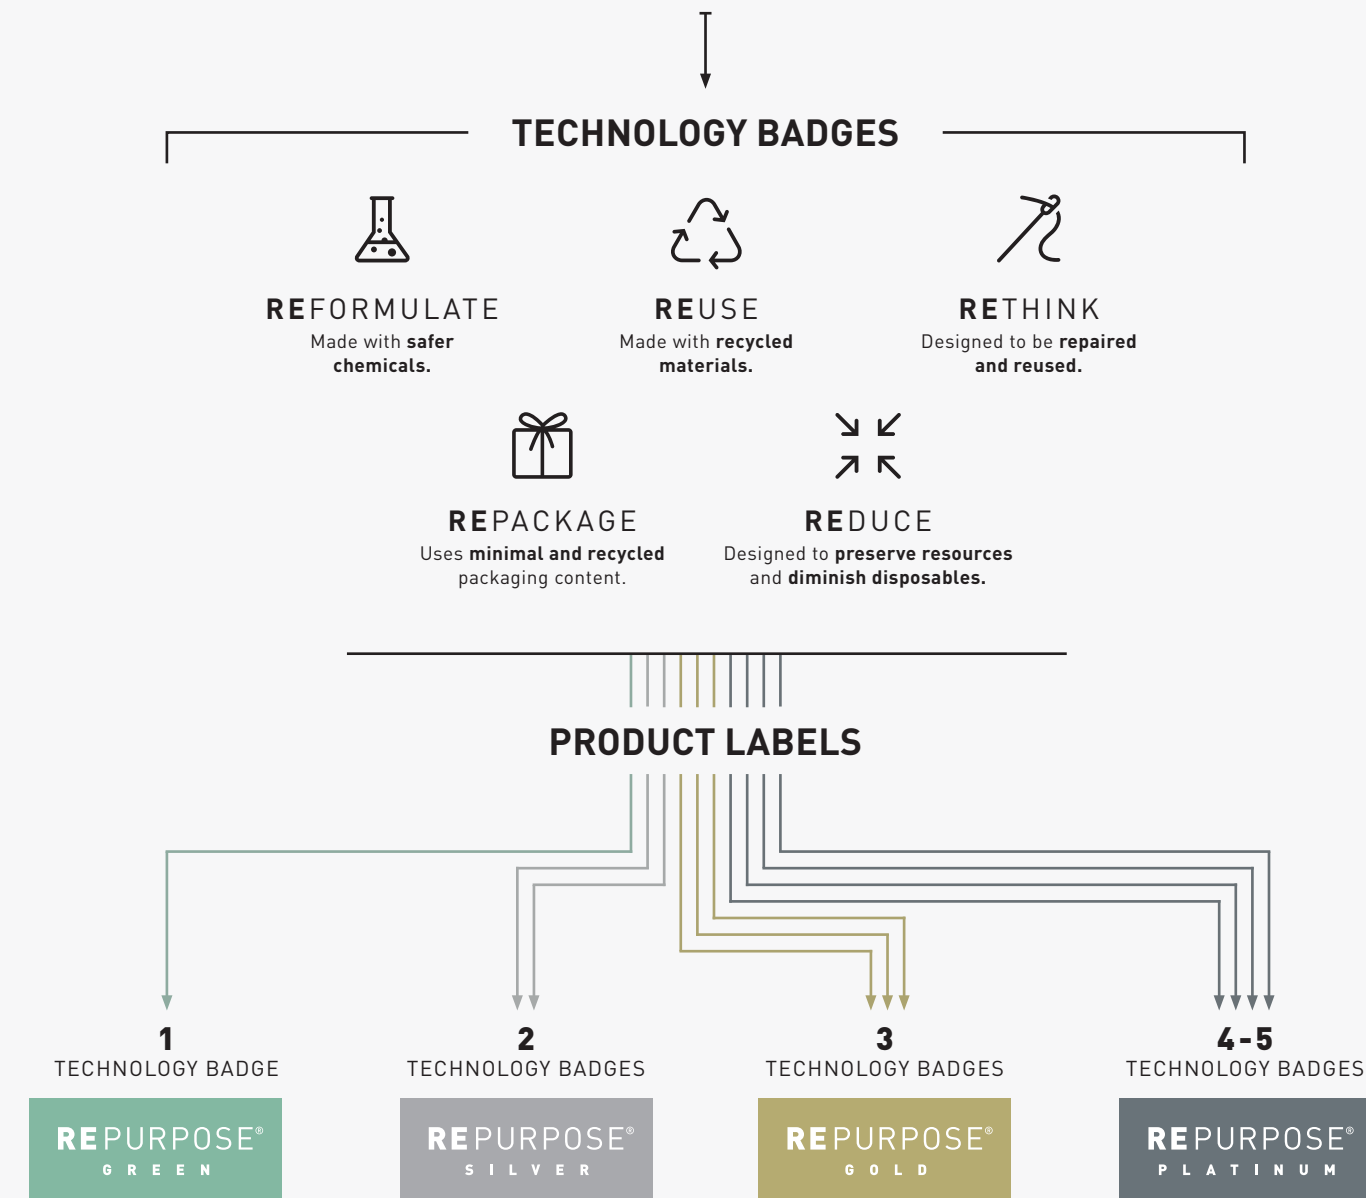

We work with innovative partners and factories that share in our commitment to manufacture sustainable products. The goal is not to make more, but to do more – with less.

PLANET

The responsibility of sustainability lies with all of us – makers and consumers. Whether the products that we create or the forward-thinking community we collaborate with, CamelBak® is committed to driving positive environmental change.

HOW DOES IT WORK?

REPURPOSE® REPRESENTS THOUGHTFUL DESIGNS AND CREATIVE SOLUTIONS FOR A MORE SUSTAINABLE LIFE.
WE'RE COMMITTED TO CHOICES THAT MAKE A DIFFERENCE.

A BETTER LIFE FOR OLD PLASTICS

Breathing new life into plastic waste is harder than it seems. Much of what's recycled ends up in landfills and incinerators or is mechanically chipped and recycled into new products that don't always have the durability needed for daily use. There is science in the solution. Polyester Renewal Technology (PRT) is more efficient than mechanical recycling and produces new material that is made with **50% recycled content**. Less virgin plastic needed for new products means saving precious environmental resources. Our line of everyday water bottles is now made with **Tritan™ Renew** – an innovative plastic that utilizes 50% recycled material in place of fossil-based resources. Tritan™ Renew is highly durable, dishwasher safe, and free of BPA, BPS, and BPF chemicals. Our reusable bottles made better.

NOTES

THE GOT YOUR BAK™ LIFETIME GUARANTEE

CamelBak has built its reputation by engineering products that exceed consumer expectations for quality and durability. The Got Your Bak™ Lifetime Guarantee covers all reservoirs, backpacks, bottles and accessories from manufacturing defects* in materials and workmanship for the lifetime** of the product.

CamelBak will repair or replace at its discretion any manufacturing defect in these products free of charge. The Got Your Bak™ Lifetime Guarantee does not cover damage caused by normal wear and tear***, accident (lost/stolen), combat damage, improper care or cleaning, non-standard usage or negligence. Product must be purchased from an authorized CamelBak dealer and should be returned to us for evaluation.

* MANUFACTURING DEFECTS

A manufacturing defect exists if the product departs from its intended design. Defective materials (zippers, buckles, fabrics, etc.) or workmanship (seams, construction, etc.) are covered by The Got Your Bak™ Lifetime Guarantee for the lifetime of the product.

** LIFETIME

The term Lifetime refers to the lifetime of the product. Unfortunately, this doesn't mean your lifetime or ours, but rather the lifetime of the components, fabrics and materials. While we choose the very best materials available to make our products as durable as possible, all materials degrade over time with use and exposure to the elements and a product's lifetime is a function of how much use it gets and how well it is cared for and not by how old it is.

*** WEAR AND TEAR

Wear and tear is damage that naturally and inevitably occurs as a result of normal use. Moving parts will wear out and fabrics will deteriorate and fade over time. And while we choose the best materials available for the application, all materials degrade over time with use and exposure to the elements.
