# LOWA Camino GTX TF (Disc)

SKU: 210640

## Description

The LOWA Camino GTX TF is a rugged trekking boot designed for extended journeys, demanding terrain, and heavy-load hiking. Engineered to provide lasting comfort and dependable support, it excels on long-distance routes where stability is essential. Its robust construction helps maintain confidence on uneven trails while reducing fatigue during prolonged use. Built for reliability in challenging outdoor conditions, this boot is well suited for serious trekking and backcountry adventures.

## Features

A waterproof and breathable GORE-TEX membrane keeps feet protected from moisture while ensuring a comfortable internal climate throughout changing conditions. The durable nubuck leather upper delivers excellent abrasion resistance and long-term durability for demanding use. LOWA's supportive midsole technology enhances stability and cushioning, particularly when carrying heavier packs over rough terrain. The high-cut design improves ankle support and control, while the Vibram® outsole provides dependable traction and grip on a wide variety of trail surfaces.
