Description

The LOWA Renegade II GTX Mid TF boots combine robust smooth leather with a GORE-TEX Performance Comfort lining for waterproof, breathable protection. They maintain excellent control and ground feel while supporting a natural, fatigue-free rolling motion. Designed for both performance and everyday versatility, they deliver dependable hiking capability with a clean, casual look. The boots also feature a slip-resistant Lowa Patrol sole, heel stabilizer, polyurethane midsole, and Teflon-coated Cordura on the heel edge and tongue for added durability.

Features

The boots feature a 125/160 mm shaft height for balanced support and mobility. A padded tongue and ankle hem enhance comfort, while water protection lids help shield against moisture. A polyurethane cushioning midsole and Monowrap construction provide stability and shock absorption. The Lowa Patrol rubber sole delivers non-slip traction on moderate terrain. A heel stabilizer and TPU layer ensure balanced torsion and flex stability.
