DANNER Resurgent Tactical 8in Black

SKU: 50111

Description

The Resurgent Tactical 8in Black feature a plain-toe design for a lighter feel and greater flexibility during break-in. Built without insulation, they are ideal for mild to warm conditions while maintaining all-day comfort. Lugs on the Vibram oil-and-slip-resistant outsole support fast-paced agility and won't collect dirt as you move. Finished with a secure lace-up closure, these 8-inch boots weigh 32 oz per pair, offering dependable support and durability.

Features

These boots feature a 100% waterproof Danner Dry membrane that keeps feet dry while allowing moisture to escape for lasting comfort. Body Fluid-Borne Pathogen Resistant construction meets ASTM F1671 standards, providing protection for EMS personnel against bloodborne pathogen penetration. A nylon shank reduces foot fatigue and protects the bottom of the foot on rough terrain. The polyurethane footbed delivers shock absorption with open-cell construction for improved airflow. The Vibram Resurgent outsole features large pentagonal lugs for enhanced stability, agility, and multi-directional traction.
