TRIJICON SRO® Red Dot Sight 1.0 MOA Red Dot

SKU: SRO1-C-2500021

Description

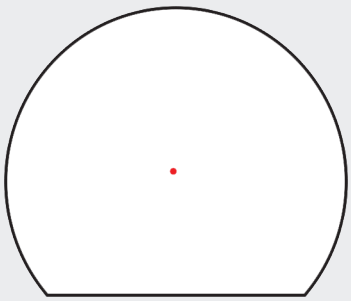

The Trijicon SRO 1.0 MOA Red Dot is optimized for rifles, target pistols, and precision shooting at extended distances. Its large field of view and crisp 1.0 MOA dot enable fast target acquisition while maintaining exceptional accuracy. The sight features manual and automatic brightness modes with up to 3 years of battery life. Built from forged 7075-T6 aircraft-grade aluminum, it is engineered to withstand the demands of slide-mounted pistols and hard use. It is designed to fit on many of the most popular red-dot-ready brands on the market.

Features

The Trijicon SRO Red Dot Sight features adjustable windage and elevation to provide tool-less design that makes zeroing hassle-free. The button lock-out mode secures the Auto-Brightness setting feature, and the lock-in mode secures the user-chosen brightness setting indefinitely. It has 8 brightness settings, including 1 super bright mode and 2 night vision modes. The Fine-tuned, illuminated reticle, coupled with clear front lens, offers a clear sight picture with a crisp dot. The top loading battery makes battery switching fast and easy. It offers a large unobstructive field of view while being compatible with suppressor-height iron sights.
