HK SFP9 L OR

HECKLER & KOCH

Description

Long-slide pistol variant designed for increased accuracy, extended sight radius, and improved recoil control. Key Features: Extended 127 mm barrel; longer slide; optics-ready; reduced muzzle flip; ambidextrous controls; customizable grip; precision-oriented design.

Specifications

Calibre	9 mm x 19
Operation	Recoil-operated
Mag Capacity	15, 17, 20 Rd
Barrel Length	127 mm
Overall Length	210 mm
Twist Rate	N/A
Height	138 mm
Weight	670 g
Width	33 mm
Trigger Pull	22 + 5 N 1
Sight Radius	183 mm
Color	Black

Features

The extended slide and barrel enhance sight radius and stability, improving precision at longer distances. Increased mass at the front reduces muzzle rise for faster follow-up shots. The optics-ready design allows integration of red dot systems for competition or precision use.
